

nuove credenziali di accesso default switch planet

a causa di nuove disposizioni legislative sono cambiate le credenziali default degli switch Planet. I nuovi dispositivi devono avere la propria password unica (legata al MAC address). Sotto trovate le nuove modalità di accesso:

- **Default Username:** admin
- **Default Password:** sw +le ultime 6 cifre del MAC address in minuscolo

ESEMPIO per switch con MAC address 0008744C7F1D:

- Default username: admin
- Default password: sw4c7f1d

2.1 Logging in to the Web Smart Ethernet Switch

1. Use Google Chrome or above Web browser and enter IP address **http://192.168.0.100** (that you have just set in console) to access the Web interface.
2. When the following dialog box appears, please enter the configured user-name and password.

The factory default user name and password are as follows:

Default IP of Interface VLAN 1: **192.168.0.100**
Username: **admin**
Password: **sw + the last 6 characters of the MAC ID in lowercase**

Find the MAC ID on your device label. The default password is "sw" followed by the last six lowercase characters of the MAC ID.
